海嘉融洽、温暖、积极的师生关系让我更好地平衡紧张的学术学习和放松的休闲状态，激发我以更好的状态去迎接挑战。在海嘉的时光是一段难忘的经历。

The atmosphere between students and teachers in BIBA has helped me find a balance between busyness and relaxation in the stressful weekdays of high school, which has given me unlimited motivation. My time at BIBA is really an unforgettable journey.

“在海嘉，IB课程给了我一个更广阔的世界，它让我的视野变得更加广博，它让我的胸襟变得更加宽广。我们班的互动学习很频繁，从老师那里我们得到了更多更有针对性的支持。我很喜欢这样的学习经历。”

“In BIBA, I found that the IB course has led me to a wider world and has broadened my vision. It has made my mind more open. There aren't many students in our class, but we learn frequently when we interact. At the same time, we also get more and more targeted support from teachers, and I like this experience very much.”

“我们在海嘉已经第十一年了，我选择学校的一个尺度是‘刚刚好的那种合适’。海嘉是一所非常稳步踏实、充满人情味的学校，我和孩子在这里都感觉很放松，孩子始终快乐地学习，保有对学习的热忱和兴趣。这在我看来，就是一所‘完美’的学校。”

“This is our eleventh year at BIBA. I believe when choosing schools, the best choice is to choose a suitable school for my child rather than the best school. BIBA as a caring community is growing steadily. Both my children and I feel comfortable at BIBA, and my children are always curious and eager to learn. Therefore, to me, BIBA is a perfect school.”

学院制

HOUSE SYSTEM

海嘉学校首创将西方的HOUSE (学院) 体系与中国的儒家五常结合起来，把全体学生和老师分为五个名为仁、义、礼、智、信的学院，通过显性课程与隐性课程的实施，增加学生及老师跨年级互动学习的体验，促进国际教育与中国文化的融合，立德立言，无问西东，使这些品德培养目标得到强化和落实，化为海嘉人的内在修养。

BIBA is the first to combine the Western HOUSE(College) system with the 5 Chinese Core Values, and divides all students and teachers into five colleges named Ren, Yi, Li, Zhi and Xin. Through the implementation of explicit and implicit courses, students and teachers can increase the experience of cross-grade interactive learning and promote the integration of international education and Chinese culture. By strengthening and implementing these moral cultivation goals, the inner cultivation can be improved.

价值观

幼儿园课程

EARLY YEARS CURRICULUM

海嘉幼儿园致力于在丰富的双语环境中促进游戏化学习

BIBA Early Years promotes Play Based Learning in a rich Bilingual Language Environment.

游戏的力量

The Power of Play

在学习中，当幼儿被赋予责任和自主权时，可以获得最佳的学习效果。在海嘉幼儿园，我们让幼儿自主做决定、选择和试错。在游戏中学习，会让幼儿感到有能力主导、试错并在适度的安全范围内自己做决定，而不会受到任何后果或“错误答案”的影响。正是通过自主游戏或工作，孩子们学习、发展并同步完善语言能力、数学思维、社交和情感技能等。

游戏化课堂鼓励学生进行社交互动和合作。通过游戏，孩子们学会协商、交流、分享和共同合作。这些互动为学生提供了相互学习、支持彼此并发展重要社交技能的机会。老师们在这个过程中促进和指导互动，确保学生有机会与同龄人交流，从而完善补充自己的能力，学生的成长也可以得到有效支持。

在海嘉幼儿园，我们提供丰富的中英文双语沉浸式环境，教师们在并行双语及顺序双语教学方面均接受过良好的培训，应用技巧和策略最大限度地支持幼儿双语学习。

Young children learn best when they are given responsibility and autonomy in their own learning. At BIBA Early years children are allowed to make decisions, choices, and errors. Learning through play helps them to feel empowered to take the lead, make mistakes, and form their own decisions in a safe space, without repercussions or 'wrong answers'. It is through self-directed play or work that children learn, develop and finetune their language and literacy, their mathematical mind, their social and emotional skills, and so much more.

Play-based classrooms encourage social interaction and collaboration among students. Through play, children learn to negotiate, communicate, share, and work together. These interactions provide opportunities for students to learn from each other, support one another, and develop important social skills. Teachers facilitate and guide these interactions, ensuring that students have the chance to engage with peers who complement their abilities and support their growth.

At BIBA Early Years, we offer rich immersive bilingual language environments, both Chinese and English. Our teachers are well trained in both simultaneous and sequential bilingualism and apply techniques and strategies that best support children in a bilingual learning environment.

BIBA's Middle and High School is infused with the philosophy of the 4Rs: Responsibility, Respect, Rigor and Relationships. We are a community full of dynamic, multicultural learning that equips students with the skills needed to thrive in our 21st-Century world. With the stalwart national curriculum standards of China serving as a foundation, and fused with the essence of IB, BIBA's Middle and High School provides a rich array of courses that cater to all learners. Students acquire advanced academic skills across a range of subject groups in order to foster both intellectual curiosity and a spirit of international-mindedness. This culminates in a student body that is "Deeply rooted in China, but has a heart for the world". From an academic perspective, we aim to nourish students' essential skills, and embed the cultivation of a strong moral character, empathy, pride in the mother country, service to the community, innovative learning tasks, and critical thinking across the curriculum to develop students with a strong propensity to succeed. BIBA's holistic approach to education recognizes that a well-rounded student requires a multitude of opportunities to nurture their skills and talents. Hence, students gain from our rich offering of extra-curricular activities, student leadership programs, college and career counselling, service learning, and CAS projects. Intertwined throughout is our "Flourish" program, centered on promoting student wellbeing and emotional resilience; this aligns with our strong belief that a campus based on "love and fulfillment" is the key to helping our students thrive and achieve their potential.

丰富的课外课

EXTRA CURRICULAR ACTIVITIES

在提供专业化发展的同时，我们也倡导全面、多样化的运动选择。课外课是海嘉体育课程的延伸和补充，从创意艺术、学术/文化、运动、表演/音乐、游戏/生活等角度为孩子们提供专业的课后兴趣选择。

海嘉拥有200余种课外活动(Extra-Curricular Activities)供学生选择。课外课量身定做了符合各个年龄段学生的相应教学计划，在努力、友情、责任、尊重的行为准则指导下，引导海嘉学子乐享校园生活，发展多元化的兴趣爱好，为迎接未来挑战奠定基础。

在海嘉，学生得到的不仅仅是知识，更重要的是，他们的参与、合作、领导力素养得到了锻炼和培养。老师有系统、有计划地指导孩子们进行探索，潜移默化地培养了学生的各项综合能力，学生的知识和技能也通过学习、设计、动手获得。

Apart from athletic development, BIBA offers a rich assortment of after school activities (ECAs). ECAs are an extension of our athletic program. ECAs include activities of personal interest and skills-based classes, taught by professionals.

BIBA offers more than 140 ECAs and allows the learning day to extend while giving students an opportunity to experience multiple activities and to build their characters from such a young age. Under the guidance of the 4Rs, we believe the ECA program can better prepare our children for future challenges in the increasingly globally interconnected world.

At BIBA, students build their communicative, collaborative and leadership skills through academic learning as well as through the ECA program. Our aim is to provide learning opportunities outside of the classroom and inspire students to extend opportunities for learning.
